Design skills

Expertise: Design Thinking, High-Fidelity Designs, Information Architecture, Task Flows, A/B Testing, Feedback Analysis, Heuristic Evaluation, UI Consistency, User Research.

Platforms: Figma, Adobe Illustrator, Adobe Photoshop, Canva, Procreate, Google Workspace.

Technical skills

Languages: SAP ABAP, Python, Java, HTML, CSS, SQL, JavaScript.

Frameworks/Platforms: Flask, Github, VS code, Netlify, Service Now.

Others: Problem Solving, Debugging, Code Optimization, Data Evaluation, Mentorship and Client Interaction.

Education

• PES University - 8.65/10 - May 2020

B.Tech in Electrical and Electronics Engineering
Minors in Computer Science

Projects

• Grocery Delivery App UI Case Study

Designed an intuitive and visually engaging UI case study for a grocery delivery app aimed at fast, seamless shopping. Conducted user research, created wireframes, and developed a UI system in Figma. Focused on pain points like delivery clarity and spend details.

• Instagram Reel UI for Mobile, Tablet Prototype

Built a seamless Instagram Reel UI prototype in Figma optimized for both mobile and tablet screens. Focused on native gestures, smooth transitions, and responsive layouts. Included interaction flows for likes, comments, shares, save and user profile navigation.

• Responsive Weather Dashboard UI

Designed a clean and responsive weather dashboard in Figma with responsiveness. Focused on data clarity, components, and grid layout that adapts seamlessly across all devices.

Certifications

- Internshala Placement Guarantee Course in UI/UX
- UI/UX by Udemy, Great Learning and Accenture

★ Awards

- Prof. C N R Rao merit scholarship and Prof. M R Doreswamy merit scholarship for being in the top 15% performers at PES University
- APEX Award H1 FY23 by Accenture in recognition of exemplary work.

Interests

I create Graphic Designs, Crafts and Animations on my Youtube Channel: @nva_art and Instagram: @nva_art
